IDS

The IDS filed on 6/11/07 has been considered. The cited references provide for the coating of a boron carbide powder with an organic substance as it is mixed in slurry having a solvent. The slurry is mixed to provide for a homogeneous mixture that is later compacted and sintered. However, the cited references fail to provide or reasonably suggest adding water to the coated boron coated, which is deemed as the boron carbide in the slurry comprised of the organic substance.
